Quick Generator

Corporation Name

Preface

**Quick Generator
Corporation Name**

Quick generators are for when you need something quick and easily – You don't need hundreds of linked tables for everything in your games or stories.

This particular Quick Generator covers the names a modern or futuristic corporation may have. It may not reflect how they started, but almost everyone would know the name and what they do.

How to use

1. Table 1 entries marked with an [x] are for you to fill in your own entries, such as names, locations etc.
2. Table 1 entries followed by a "-" are to be joined to the second part either directly or with the hyphen.
3. Roll a d100 and check the result on table 1.
4. Roll a d100 again and roll on table 2.
5. Combine to get the corporation name.
6. You can save time by using the same number rolled for both tables.

Examples

Method 1
1st d100 roll = (87) = Titan
2nd d100 roll = (24) = Contractors
Combined Result = "Titan Contractors"

Method 2
Using the d100 rolls from above you could have:

(87) = Titan Specialties

or

(24) = Diamond Contractors
