SHOU-CHIANG: THE SHOU ALPHABET

The 24 characters of the Shou Chiang are the basis for written communication throughout Shou Lung. The characters have been refined and developed for thousands of years, and many nations have adopted variations of them. Shou is written from top to bottom, left to right. The numeric system of Shou Chiang is simple, and easily transferred to the abacus, a common counting tool in the Em

Kara-Tur Trail Map

The mysterious and exotic lands of Kara-Tur cover nearly a quarter of the globe, stretching from the steaming jungle lands of the south to the hidden valleys of the Issacortae in the north, from the plains of the horse barbarians in the west to the war-torn isles of the shogun in the east. And at the center of it all lies Shou Lung, the empire of the dragon.

The Kara-Tur Trail Map compiles information from all past products into one comprehensive and authoritative map of the Eastern realms.

All geographical and political features of note are included on a 36" by 57" sheet suitable for use in gaming or as a wall poster.
