King Solomon has chosen you to capture the demons that run rampant around his kingdom.

YOU ARE AUGURS, YOU ARE ASTRONOMERS,
YOU ARE SORCERERS, YOU ARE PRIESTS,
YOU ARE WARRIORS. **YOU ARE EXORCISTS.**

Entrusted with his seal, you bear his authority over the people of the Kingdom in the pursuit of your sacred oath to deliver these demons to the Temple.

UNDER THE SEAL OF SOLOMON

Y O U R O A T H

King Solomon has graced your people with his presence, descending from the clouds atop his flying throne to choose you for his army of exorcist-warriors.

A sacred oath has been bestowed upon you: to capture the demons that assail his kingdom and use the power of his seal to command them to kneel at his Temple.

In your travels you're joined by fellow exorcist-warriors, banding together to undertake this sacred task against the powerful demons that threaten your people.

CREATE YOUR EXORCIST

For simplicity's sake, we'll refer to the characters as Exorcists, that is their duty, that is their purpose. Follow the character creation as described in INTO THE BRONZE.

Every one of you holds authority over King Solomon's subjects while you pursue the hunt. You may seek shelter, succor and even equipment as long as you can justify how it helps you fulfill your oath.

Capturing these demons is surely a deadly task, and if your player group is small, you may do well in considering creating at least two EXORCISTS to play.

THE KEY OF SOLOMON

Are a series of God-given commands that King Solomon has written on a table for you to enact. *Who holds the KEYS?* Write down the **KEYS** in your inventory sheet.

KEYS

Average Explosion: 5+

Unlike normal items, the table cannot be broken by usage. Although the KEYS never deplete, the implements you use to write them do. You can use the KEYS to damage a demon as long as you have Tools to write them.

THE SEAL OF SOLOMON

You were entrusted with a ring engraved with his sigil. This signet is necessary to seal the written KEYS. *Who holds the SEAL?* Write down the **SEAL** in your inventory sheet.

SEAL

Average Explosion: 4+

Unlike normal items, the ring cannot be broken by usage. The **SEAL** can only be used once the KEYS have been written.

THE JAR OF SOLOMON

As you will learn, true demons cannot be killed. If you write down the commands described in the KEYS, and SEAL them with his signet, you will defeat the demon's physical manifestation and compel it to enter the **JAR**. Once trapped, you can carry them back to the Temple of Solomon so they confess their corruptions. *Who holds the JAR?* Write down the **JAR** in your inventory sheet.

CONFRONTING A DEMON

Once you have lured a demon out of hiding or faced it openly in its earthly domain, you will quickly learn that no mere mortal man can kill it. However, with the power held in the Table and the Ring, Exorcists can vanquish its manifestation and command it to be sealed in Solomon's Jar.

Common weapons cannot damage a demon; its HP can only be reduced by the use of the KEYS and the SEAL.

When confronting a demon, **one of the Exorcists must write down the KEYS**—over a vellum or clay tablet—commanding its surrender. Once the command is written, **you must imprint the words with the SEAL. When it reaches 0HP, it becomes trapped in the JAR.**

There is no tried and true way to defeat a demon. You must use your wits and any tools at your disposal to bring it down. Writing the words over a piece of vellum and beating the demon senseless with the Ring is as good a method as any, and if you can endure the demon's attacks, you might find yourself victorious.

WHAT ABOUT YOUR BRETHREN IN ARMS?

Although only the ones who carry the KEYS and the SEAL can harm the demon, they still need all the help they can get. Fellow EXORCISTS can **carry the writing Tools to assist the KEY-keeper,** corner and **hold the physical manifestation of the demon,** or **fight its minions** while their companions perform the binding ritual.

CHARACTER DEATH

Even the lower demons of The Hierarchy are supernaturally strong and vile, with powers far beyond the realm of human ability. There is no shame in dying fighting a demon, but an honor to fall while facing against one.

You will surely lose a fair amount of characters during your campaign. Don't fret it. In his wisdom, King Solomon has chosen a myriad of exorcist-warriors to join his sacred war, cruising the skies over his Kingdom to bestow the oath upon subjects from all walks of life.

When your character dies, create a new EXORCIST and ask the GM to introduce them as soon as possible. You will surely come across them during your journeys.

RUNNING THE GAME

THE 72 DEMONS

WHEN PREPARING A DEMON FOR THE PLAYERS TO HUNT

Assign **ATTRIBUTES**, **HP** and **DAMAGE** according to the demon's rank in The Hierarchy. Some demons hold more than one rank; since you would probably want to start from less to more powerful enemies, I placed them under their lower hierarchy, but you can easily move them upwards by upgrading their stats.

Each demon has a **MANIFESTATION** that describes how it presents itself to mortals; a **DOMAIN** that explains the power it holds over other demons; and an **INVOCATION**, which are the powers it grants to tempt the sorcerers that consort with them.

DEMONS IN YOUR CAMPAIGN

As powerful as demons can be, they are heavenly ordained to be below human beings. This means they have to be clever and tricky, finding positions of power and influence to leverage against Solomon's subjects.

- ▼ A demon can be **HIDING** amongst the population, possessing those who are vulnerable to its influence.
- ▼ A demon can be **COLLUDING** with a sorcerer, granting supernatural powers while manipulating them to corrupt the people around them.
- ▼ A demon can be **TEMPTING** the local population, posing as a false god to be idolized by a cult or even a whole city!
- ▼ A demon can be **ROAMING** the land, assailing travelers and isolated towns by following its bestial nature.

When running this campaign, have a demon take hold of a hex. The EXORCISTS will heed the call to help the population by excesing its corruption. Facing a demon counts at least as one Challenge (if not more) depending on its power and how many obstacles there are between it and the characters.

72 DEMONS IS A LOT OF DEMONS

Considering how powerful each demon is and the dominion they may have secured around themselves, confronting one can very much turn into an adventure onto itself. Now multiply that by 72. That's way too much, right?

First of all, this is no easy task, King Solomon has recruited hundreds of exorcist-warriors to fulfill this mission throughout the years. You can place your campaign at any point of this war:

- ▼ *Are the players the first chosen ones?*
- ▼ *Have your group inherited the Keys and the Seal from a former Exorcist to continue the fight?*
- ▼ *Is the Kingdom full of demons running amok?*
- ▼ *Or are we reaching the end of this war, with only a handful of demons left to capture?*

OTHER ENEMIES ON THE ROAD

As mentioned before, demons may pose as false idols to gather followers; hide by possessing people and mislead their community to protect them; or be escorted by an assortment of lesser demons and spirits. But those aren't the only enemies that stalk the land. In their travels, EXORCISTS may encounter:

▼ Wicked sorcerers who would try to steal the JAR and bind the demons therein.

▼ Common dangers of the road, like bandits and beasts.

▼ Beguiled followers retaliating against the EXORCISTS who took away the gifts the demon granted them.

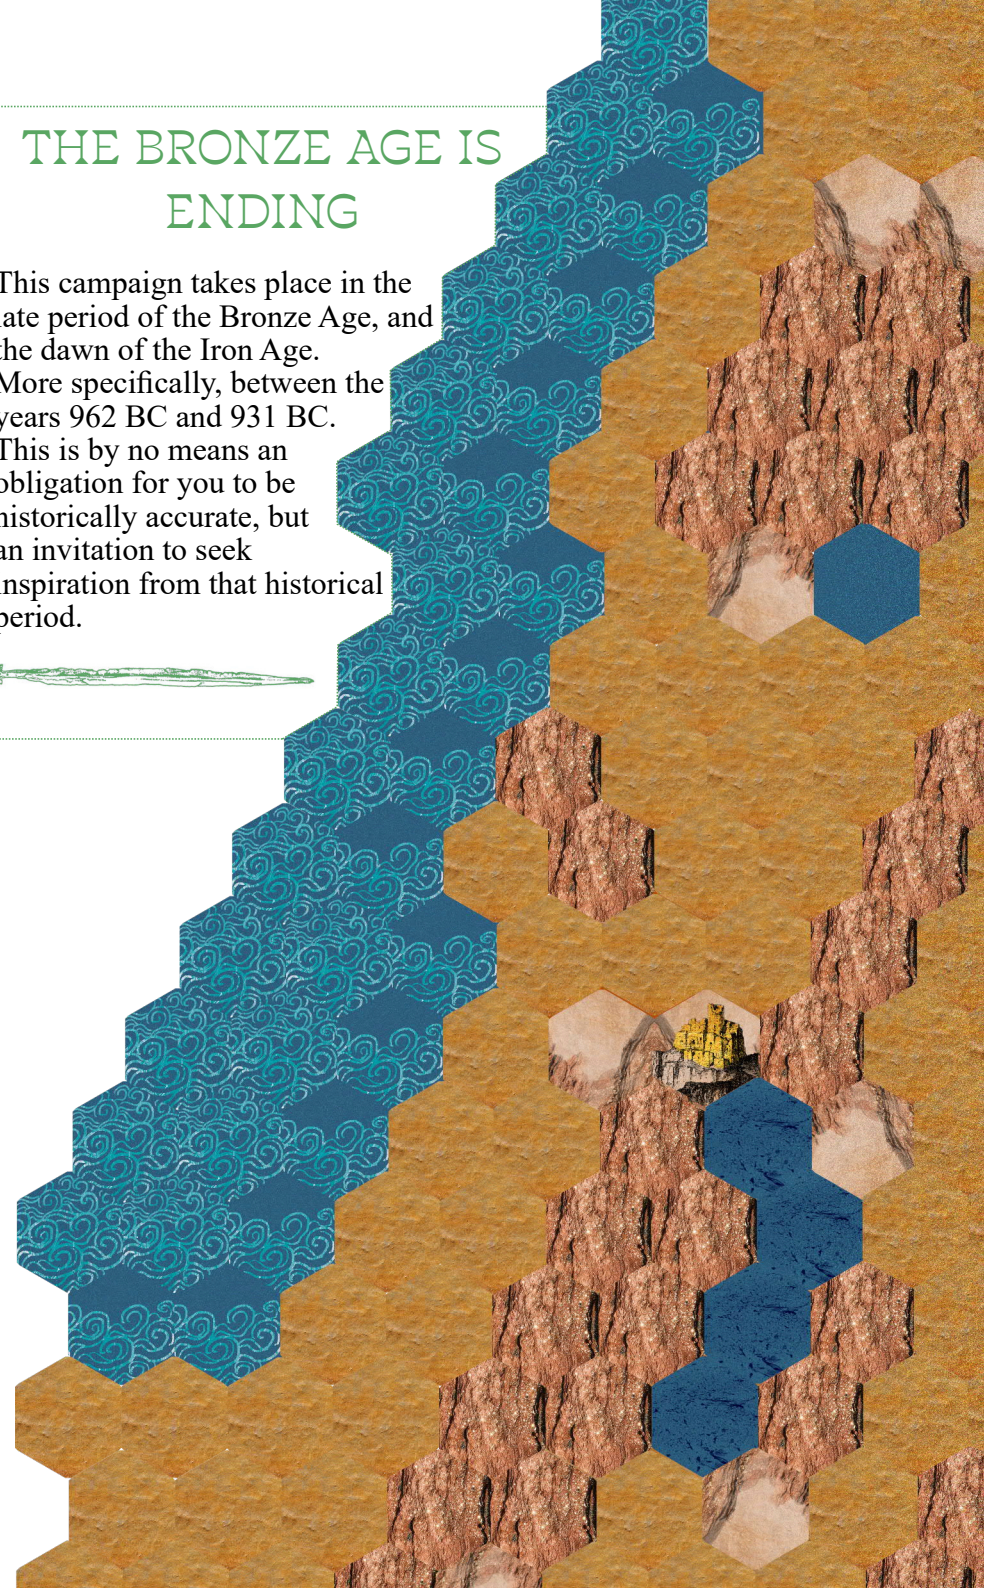

▼ Rival exorcist-warriors who deem the characters unworthy of carrying the KEYS, SEAL and JAR, and want to claim them for themselves.

THE BRONZE AGE IS ENDING

This campaign takes place in the late period of the Bronze Age, and the dawn of the Iron Age.

More specifically, between the years 962 BC and 931 BC.

This is by no means an obligation for you to be historically accurate, but an invitation to seek inspiration from that historical period.
