WEAPON AND EQUIPMENT QUALITIES

DISHONORABLE

Dishonorable weapons impact the renown of the character. Using such a weapon can lead to serious consequences such as censure from allies, loss of rank, and sometimes imprisonment or death. Weapons that break the standard of Martian Honor usually have this quality.

EXPLOSIVE

For each effect rolled the weapon inflicts an additional 1 damage to the Fear and Injury stress trackers. If the target does not have these stress trackers, each icon rolled deals 2 damage.

The narrator can spend 1 Threat to force any character at Near range to the target to roll a (D2) test to evade the blast, or take 1 damage.

Players using weapons with the Explosive quality can spend 1 Momentum to force a narrator character at a Near range to the blast to roll the same test.

FEARSOME

For each effect rolled the weapon inflicts an additional 1 damage to the Fear stress tracker. If the target does not have this stress tracker, it simply deals damage.

PSYCHIC

For each effect rolled the weapon inflicts an additional 1 damage to the Confusion stress tracker. If the target does not have this stress tracker, it simply deals damage.

QUIET

When you use a weapon with the Quiet quality, you gain 1 bonus

Momentum to use on a test to keep your position hidden, providing you haven't already been spotted.

SHARP

For each effect rolled the weapon inflicts an additional 1 damage to the Injury stress tracker. If the target does not have this stress tracker, it simply deals damage.

POISON

If a weapon is coated in poison, such as the venom of a sith, it gains the Fearsome and Dishonorable qualities.

If poison is slipped into food or drink it does 2 of damage with the Fearsome quality. If a character is discovered to have used or is caught using poison, they suffer the consequences of using a Dishonorable weapon.

MOMENTUM SPEND	EFFECT
Create Opportunity	For each Momentum spend, roll an additional d20 for test. You must spend Momentum before you roll.
Create Obstacle	For each 2 Momentum spent, increase difficulty of another character's action by 1. Cannot increase difficulty more than 3 steps.
Counterstrike	Spend 3 Momentum after defending in an opposed test to immediately take a Conflict action against the other character in an opposed test. You cannot Counterstrike a Counterstrike.
Obtain Information	Spend 1 Momentum to ask 1 simple question about a character, situation, or scene. Narrator must answer truthfully.
Increase Quality of Success	Make effect of success more dramatic or useful. Cost often varies with type and amount increase.
Increase Scope of Success	Make effect of success affect more characters or a wider area. Cost often varies depending on how much the scope increases.
Reduce Time Required	Reduce normal time needed to accomplish a task. Cost varies based on circumstances and length of time reduced.

LUCK POINT SPEND	EFFECT
Bonus d20	For 1 point of Luck a player can add a bonus d20 that has already rolled a 1.
Preform an Additional Conflict Action	A player may spend 1 Luck point to gain one additional Conflict action. This may only be done once per turn.
Second Wind	A player may spend 1 Luck point to remove all stress from 1 stress track.
Overcome a Weakness	For 1 Luck point a character may ignore the effects of all afflictions for a single Conflict action.
Influence the Story	A player may spend 1 Luck point to introduce a fact or add a detail to the current scene. If the detail is particularly important or gives a distinct advantage, more than one point may be needed.

MOMENTUM SPEND	EFFECT
Roll Extra Damage	After succeeding on an attack, but before you roll for damage, you can spend Momentum to roll extra combat dice. Each point of Momentum spent provides 1 bonus combat dice.
Send Their Weapon Flying	Three points of Momentum can send an enemy's weapon flying to where an ally might get it. Two points might knock it to your enemy's feet.
Dispatch a Minion	Every extra point of Momentum spent when fighting minions will dispatch an additional minion.
Additional Movement	Spend 1 Momentum to move an additional range between the character and a target if not hindered or blocked by another character or obstacle. Spend 3 Momentum to move an additional range between you and a target, ignoring any obstacles (characters in your way can still attempt to stop you).

UPGRADE	XP COST
Add a talent	5xp per grade of talent
Change a flaw	10xp per grade of talent
Increase one of your attributes a first time	10xp
Increase one of your attributes a second time	20xp
Increase one of your attributes a third time	40xp*
Add a piece of core equipment (hand held)	5xp Per Item

**Every additional increase doubles this cost.*

ACTION TYPE	DESCRIPTOR
Conflict	The main focus in an action scene. Conflict actions are normally used to make attacks. Conflict actions normally require attribute tests and characters may only have one Conflict action per turn.
Free	A Free action is used to accomplish a minor activity within a turn that does not warrant the use of a Conflict, Spoken or Movement action, such as moving anywhere within Near range (as long as there is no obstruction to your movement) or picking up an object. A Free action never involves an attribute test.
Movement	A character takes this action during an action scene. A character can move to any point within away range.
Spoken	With this action, a character can use simple speech that requires little to no effort. Spoken actions never include attribute tests.

ATTRIBUTE	DESCRIPTOR
Cunning	Used whenever a character wants to weaken another. Cunning is used for all attacks, insults, and thefts.
Daring	Comes into play whenever a character is at risk and movement is important. Daring covers movement, piloting, and defense actions of all sorts.
Empathy	Used whenever a character seeks to understand or heal another. Empathy is used to heal all types of afflictions and to understand what your senses might be telling you about a person.
Might	Used to apply force to inanimate objects. It is used outside of combat to lift, bend, and break items.
Passion	Governs any attempt to lead, love, or entertain. It is used whenever another character needs to be convinced to attempt an action.
Reason	Supports any action that applies the mind or senses to work out a problem.

DAMAGE TYPE	STRESS	AFFLICTIONS	RECOVER WITH
Confusion	Empathy or Reason	Madness	Empathy + Reason
Fear	Daring or Passion	Trauma	Daring + Reason
Injury	Cunning or Might	Wounds	Might + Reason

RANGE	DESCRIPTOR
Immediate	The state of Immediate is when an object or character is within arm's length of the acting character. Immediate is something that the player can declare when the character is moving.
Near	Not immediately adjacent to but close enough to reach a target fairly easily. Characters can shoot at, speak with, and generally interact with anyone Near.
Away	Away distances place a target apart from others. This includes places that can only be reached by dramatic actions such as leaping and climbing.
Far	Reachable only by the most long-distance attacks or methods of interaction. Most firearms have a range of Far, and this generally covers the furthest a character can see.
Too Far	Targets that are Too Far may be visible or otherwise detectable, but they are beyond the ability to interact with physically. Communication requires special technology.

FLIER PURPOSE	MOMENTUM ADVANTAGE
Cargo	Cargo vehicles gain no Momentum advantage
Civilian	Civilian vehicles gain a 1 Momentum advantage against Cargo vessels.
Military	Military vessels gain a 1 Momentum against Civilian vessels and a 3 Momentum advantage against Cargo vessels.

FLIER SIZE	MOMENTUM ADVANTAGE
Lumbering	Lumbering vehicles are slow and steady craft and offer no advantage in chase or combat.
Capable	Capable vehicles gain a 1 Momentum advantage when trying to avoid or engage Lumbering crafts.
Graceful	Graceful craft gain a 1 Momentum advantage in similar circumstances when engaging or avoiding Capable craft or a 3 Momentum advantage against Lumbering vehicles.
